1.	Comment. the 7th Gds	25 X 1
	Mecz Div and 32d AAA Div in their barracks installations in Frankfurt/Oder. The return of elements of the 32d AAA Div from firing exercises was	
	confirmed	25X1
	.(See Comment 2)	
	The quartering changes in the Horn	
	Kaserne (4445) have not yet been clarified. The searchlight employed	
	during the night practices in the area of Rosengarten was presumably used for the reconnaissance of ground targets. The artillery fire heard	
	from the direction of Fuerstenwalde is believed to have come from the new	
	firing range in the Briesen area.	
2.	Comment. See Comment 1 on the return of elements of the 32d	2525X1
	AAA Div. It is assumed that elements of other AAA units were also entrained after completion of the firing exercises.	
_ [•	25X1
3.	Comment. Continuous firing practices and exercises with heavy weapons were previously observed in Jueterbog. The rocket launchers	23/1
	probably belong to the 91st Gds RL Regt of the Third Gds Mecz Army	
	from Luckenwalde. presence of the 199th Light Arty Brig of the Third Gds Mecz	25X1 25X1
	Army. It is assumed that units of this brigade which is stationed in	23/1
	Jueterbog were also involved in the firing exercises observed during the	
	period of observation.	1
4.	Comment. The information indicates no changes.	25 X 1
5.	Comment. Most of the motor vehicle in the	25X1

	Army.	
6.	Comment. There were no changes in the strength of troops and traffic	25 X 1
	of personnel. It is therefore believed that courses of instruction for the Third Gds Mecz Army are still being held at the installation.
